Diamond cup wheels are used for:

- Concrete cleaning, thin coating removal, edging and concrete removal.
- Cup wheels with fewer segments offer faster, more aggressive grinding.
- Cup wheels with more segments provide smoother finishing and longer life.

Cougr Litex Wheels

05-10705C 4.5" - #10 Grit Abrasive Disk

05-10750C 4.5" - #16 Grit Abrasive Disk

05-10700C 7" Diameter Cougr Litex Wheel #16 Grit

05-10705C 7" Diameter Cougr Litex Wheel #10 Grit

- Litex style disc used to remove thick coatings, mastic, epoxy or paint.
- Inexpensive, lightweight and aggressive disc allows for higher production at lower cost.
- Reinforced plastic backing eliminates the need for backer pads.
